Date 10/03/2023

To,

Hon. Principal

Shri Shiv Shahu Mahavidyalaya, Sarud

Subject: **Request for Permission for Village Survey**

Respected Sir,

I am writing to request permission for the village survey, which is an essential component of the BA Part III Paper No. XIV entitled advanced tools, techniques and field work in Geography for practical examination conducted by Shivaji University for the BA Geography.

The village survey is scheduled to take place on 16/3/2023 at Mauje Sawarde Budruk Village of Shahuwadi Tehsil. This survey is integral to the academic curriculum and will provide our students with valuable hands-on experience and practical knowledge in the field of geography.

Attached herewith is the list of students and teachers who will be participating in the village survey. We assure you that all necessary precautions will be taken to ensure the safety and well-being of everyone involved during the survey.

We kindly request your approval and support for this endeavor, as it will greatly contribute to the academic growth and learning outcomes of our students.

Thank you for considering our request. We look forward to your favorable response.

Warm regards,

Principal

Shri Shiv-Shahu Mahavidyalaya, Sarud.

Report on Field Survey Conducted by BA Part III Department of Geography

The survey was conducted on 16/03/2023 in Sawarde Budruk Village of Shahuwadi Tehsil, which was conducted by BA Part III Department of Geography at Shri Shiv-Shahu Mahavidyalaya, Sarud students for practical Paper No XIV, focusing on socio-economic and population studies.

A total of 13 students and 2 professors actively participated in this survey, demonstrating their commitment to practical learning and academic research. Dr. Prakash Waghmare, the esteemed Head of the Geography Department, led and supervised the survey, ensuring its smooth execution and academic integrity.

The primary objectives of the survey were to analyze the socio-economic dynamics and demographic characteristics of Sawarde Budruk Village. Students utilized a variety of data collection methods, including interviews, surveys, and observations, to gather comprehensive and reliable information.

Throughout the survey, students conducted household surveys to assess income levels, occupation types, education levels, and access to basic amenities within the village. Additionally, they engaged in interviews with community members to understand the village's cultural heritage, historical background, and socio-political structures.

Furthermore, the survey included a population study to examine demographic trends such as population size, age distribution, and migration patterns. Students employed advanced analytical tools and geographic information systems (GIS) to analyze and interpret the collected data effectively.

Under the expert guidance of Dr. Prakash Waghmare, students demonstrated professionalism, enthusiasm, and dedication, reflecting the high academic standards of our institution. The successful completion of the survey not only provided students with valuable hands-on experience but also contributed to the advancement of geographical knowledge and community development initiatives.

In conclusion, the field survey organized by the BA Part III Department of Geography was a commendable academic endeavor that exemplified our commitment to experiential learning and research excellence. I extend my sincere appreciation to Dr. Prakash Waghmare for his exemplary leadership and guidance throughout the survey process.
